

WINE & BEVERAGE LIST

Our list consists of over 250 wines from across the globe. These wines come exclusively from boutique wineries who are dedicated to purity, balance, and a sense of place. We offer wines that pair well with the individual complexity of our cuisine. We seek out winemakers committed to natural processes and minimal intervention in the vineyard and the cellar. Natural wines are grown organically, biodynamically or with a holistic approach that maintains a living soil, thus a living wine! Most small producers are not certified, yet they do follow sustainable practices for the microbiological life of their vineyard. This produces wines that are free of additives, preservatives, pesticides, herbicides, and minimal sulfites. We feel this approach is life-giving and enhances the true nature of the vineyard's unique terroir. Many of these boutique wines are hard to find, allocated and rare. Experience the upliftment and vibrancy of this natural alchemical wonder!

All the wines contained herein are sustainably farmed at the very least. You can find designated organic and biodynamic wines with the help of your server or this legend

ORGANIC

BIODYNAMIC

Our corkage fee is \$45 per bottle, with a maximum of 2 bottles per table. We are unable to open any private cellar bottle that also appears on our list.

NOTE: Many of our natural handcrafted wines are often produced without fining or filtering. The sediment found in the bottle is a natural occurrence and harmless byproduct which does not in any way alter the wine. We cannot accept returns on wines for containing this natural sediment.

Our leather wine books are made locally by the Topanga Creek Outpost. If you would like to have your own leather goods made check out their website <https://www.topangacreekoutpost.com>
